

## Adventure Quest Car Rally

Welcome to The Adventure Quest Car Rally! Your goal is to travel around the shire of Serpentine Jarrahdale and unlock a number of fun photo tasks, questions, clues and video challenges for points.

On your journey today you will visit a number of GPS activated and image recognition hotspots that will unlock when you arrive. You are free to complete these hotspots and tasks in any order and each task is worth a different number of points. Ultimately you want to earn as many points as you can.

## Game Features & Tips

- The game relies on GPS. If you lose your mobile signal during the game, the GPS activations will still work and will not effect your game play as you will still be able to unlock hotspots.
- Sometimes your GPS location can bounce around. If this happens move to an open area clear of any buildings and stay still until it has a chance to recalibrate your location.
- Sometimes you need to zoom right in on the map to make sure you are in the right spot to unlock a hotspot.
- You can complete hotspots in any order and you are free to complete tasks straight away once unlocked or at another time. You can also skip tasks if you are unable or don't want to complete them.
- The game has been set to auto-score so you will automatically be assigned top points for every photo and video submission however each task completed will be sent back to the game master for verification and scoring. The game master has the power to alter scores and issue bonus points.
- If you find yourself on the home screen of your phone or tablet, just look for the green star icon to go back into the game.
- Take a charging cable in the car or a mobile battery pack to maintain phone battery.
