

Rural Street Number Application

Rural street numbers are generated from the measured distance from the beginning of the road to the entrance of the property.

For a rural street number plate to be installed at the entrance of your property on a star picket or similar a fee of \$55 would require payment by completing the below payment details or by calling 08 9526 1111.

If you only require a rural street number but not the installation of a rural street number plate, there would be no fee.
