

Share your thoughts on your preferred location for a regional playground in SJ.

Where would you like to see a Regional Playground in Serpentine Jarrahdale?

The Shire is one of the fastest growing local governments in WA. As this hypergrowth is set to continue far into the future there is a strong need to develop community facilities that will help shape the Shire's growth. The Shire has a great opportunity to deliver a prime item of regional infrastructure and a community facility through government grants for a future Regional level playground facility. We need your help and feedback in selecting the **preferred location** which will contribute towards the Shire's advocacy for the project for the 2027/28 State and Federal elections.

Here is why we need your input:

The first critical step, however, to deliver this project is to find a **preferred site** that forms the basis of future design and advocacy. Finding a **preferred location** will allow the Shire to develop a strong narrative to advocate for future funding to build. Such a facility, being of regional drawcard size and extent, will need to rely heavily on external grants to meet the expected capital cost of between \$5m to \$10m.

Possible Locations:

1. Woodland Grove Public Open Space
2. Cardup Brook (co-located near future Orton Road District Open Space)
3. Keirnan Park
4. Clem Kentish Reserve

How can I share my feedback?

- Submit your responses via the survey as attached on the following pages.

Serpentine Jarrahdale Regional Playground Community Survey

Questions

1. Please indicate which of the options are your preference (1 - most preferred, 4 - least preferred):

- Woodland Grove Public Open Space – Byford
- Cardup Brook (co-located near future Orton Road District Open Space) - Byford
- Keirnan Park – Mundijong
- Clem Kentish Reserve – Serpentine

2. What themes would you like to see such a regional park having?

3. What functions and facilities would you like to see delivered within this future regional park?

4. Are there any regional parks in neighbouring local governments that you would like us to consider good ideas from for our regional park?

5. What do you like about the regional park you have identified in question 4?

6. To assist the Shire with advocacy, please provide some reasons why you think the community would benefit from a 'Regional Playground' in SJ.
